■ Kiev regime continues provocations to threaten a man-made nuclear disaster at Zaporozhye NPP.

■ On August 28, Ukrainian troops used an unmanned aerial vehicle to strike at the nuclear power plant.

■ Ukrainian attack drone was shot down by small arms fire as it approached Special Building No 1, which stores US-made nuclear fuel and solid radioactive waste.

■ Drone shot down by Russian servicemen fell on the roof of Special Building No 1. Serious damage and casualties were avoided.

■ The shelling by Ukrainian troops of Energodar city, near the nuclear power plant, continues unabated.

■ Over the past 24 hours, Ukrainian artillery fired 8 large-calibre shells into residential areas of the city. Some civilians are injured. Two shells exploded in close proximity to the perimeter of the nuclear plant.

■ The shelling was carried out from AFU's firing positions near Nikopol', Marganets, in Dnepropetrovsk Region, located on the opposite bank of Kakhovka reservoir.

■ In course of counter-battery warfare, enemy firepower at these positions was suppressed.

■ Zaporozhye NPP full-time technical staff continue to monitor its technical condition and uninterrupted operation. Radiation situation remains normal.

⚡ During the day on direct orders from Zelensky, Ukrainian troops attempted an offensive in 3 directions in Nikolaev and Kherson regions.

■ As a result of the active defence of the Russian troops grouping, AFU units suffered heavy losses.

💣 During the fighting, **26 Ukrainian tanks, 23 infantry fighting vehicles, 9 other armoured fighting vehicles were destroyed** and **2 Su-25 assault aircraft were shot down**. Enemy casualties in manpower amounted to over 560 servicemen. Another enemy offensive attempt failed miserably.

🇷🇺 **Briefing by Colonel General Alexander Fomin, Russian Deputy Defence Minister, for foreign military attachés accredited in Moscow, on Vostok 2022 strategic command post exercise**

■ In accordance with the Training Plan for the Armed Forces of the Russian Federation for 2022, Vostok 2022 Strategic Command Post Exercise is being conducted from September 1 to 7 headed by the Chief of General Staff of the Armed Forces of the Russian Federation.

■ The exercise will take place on the territory of the Eastern Military District and will be the final stage of training of the Armed Forces of the Russian Federation this year.

■ Vostok 2022 will be conducted in two phases over seven days.

■ The objectives of strategic command post exercise are to improve the skills of commanders and headquarters in commanding inter-service and coalition troop (force) groups when repelling aggression in the eastern direction and in the far eastern maritime zone, to increase the compatibility and level of interaction in addressing joint tasks of coalition troop groups in preserving peace, protecting interests and ensuring military security in the eastern region.

■ Strategic command post exercise will also check the level of preparedness of the military command bodies in organising the planning of operations in coastal areas and the comprehensive support and management of groups of troops (forces) during the conduct of hostilities.

■ Within the coalition groupings of troops, joint actions will be practised by the operational command bodies, military contingents and observers from the **Collective Security Treaty Organisation, the Shanghai Cooperation Organisation and other partner states, including Algeria, Armenia, Azerbaijan, Belarus, India, Kazakhstan, Kyrgyzstan, China, Laos, Mongolia, Nicaragua, Syria and Tajikistan.**
